

Full Time Physician – Non-Invasive Cardiologist

Northern Virginia private cardiology practice seeking a board eligible/board certified non-invasive cardiologist to join our young, well established practice. Candidates should possess training and expertise in all facets of clinical and diagnostic cardiology. They must demonstrate proficiency in clinical cardiology to treat patients in both acute (inpatient) and office (outpatient) setting. We look for all our physicians to exhibit exceptional interpersonal and communication skills with patients, their families and all who work in our health care community. Responsibilities will include patient consultation for a variety of cardiovascular disorders as well as providing interpretation for diagnostic cardiovascular testing (i.e: echoes, stress test, vascular studies, etc.). Additional expertise in sub-specialty fields (i.e: heart failure, structural heart disease) will strengthen your consideration but is not a necessity.

WHAT WE OFFER

- Full service, private cardiovascular practice with two office locations and prospects to expand.
- Join the cardiovascular team at a hospital that was ranked one of the Nation's 50 TOP cardiovascular hospitals for 2019 and 2020 by IBM Watson Health.
- Provide high quality care in a hospital that was ranked among the top 10 best hospitals in Virginia and one of the best hospitals in the greater DC area as reported by US News and World Report.
- Competitive salary with incentive based annual bonuses
- Opportunity to expand CV services for the practice
- Sign-on bonus
- Annual CME Stipend
- Relocation and moving reimbursement
- Highly skilled and supportive senior partners who have been recognized in Virginia's Top Docs for the last 9 consecutive years.

PRACTICE HISTORY AND INFORMATION

Our dynamic team of cardiologists have been serving the Fredericksburg and surrounding area since 2010. Currently, we are a six-provider practice which include three interventional cardiologists, two non-invasive cardiologists and a nurse practitioner. We have affiliations with two health systems encompassing three hospitals.

The practice was created 5 years ago amidst the rampant flux experienced in the healthcare industry. Consequently, one of our core principles remain to explore innovative methods to deliver care as well as an openness to new technologies and management paradigms. In a local marketplace where cardiovascular practices remain independently owned and operated, our practice continues to be one of the fastest growing businesses within a 50-mile radius. We are looking for partners to continue building our CV service line in this expanding market.

In maintaining attentiveness to the unique needs of our patients, we provide a full spectrum of invasive and non-invasive cardiovascular services. Situated amidst the bedroom communities of the DC metro area, population continues to grow exponentially resulting in new opportunities to expand cardiovascular services in our offices as well as in the hospital. In the last 2 years, the health system has invested heavily into cardiovascular services. This has lead to the construction of three new cardiac catheterization labs and two state of the art electrophysiology labs.

ABOUT THE AREA

Our practices serves the Fredericksburg, Stafford and Woodbridge communities in northern Virginia. Its strategic position along the I-95 corridor grants access to both the DC and Richmond metro areas which are located 50 miles north and south respectively. The area offers a wide range of recreational activities suitable for both urban and rural preferences and is richly embedded with landscapes of our American history and heritage.
